About Us

Welcome to V P Industries our Laser Cutting and Bending Manufacturing Company! We are a team of dedicated professionals who are passionate about providing high-quality metal fabrication services to our clients. With years of experience in the industry, we have developed a reputation for excellence in precision cutting and bending of a wide range of materials, including stainless steel, aluminum, and carbon steel.

Our Service

We are dedicated to providing high-quality services to meet the needs of our clients. We specialize in custom metal fabrication, with a focus on precision laser cutting and CNC bending.

LASER CUTTING

Our state-of-the-art laser cutting machines allow us to cut intricate designs with precision and accuracy. We can work with a variety of materials, including steel, aluminum, and stainless steel.

CNC BENDING

Our CNC bending machines allow us to produce high-quality, precise bends in a variety of materials. Whether you need a simple bend or a complex design, we have the equipment and expertise to get the job done right.

INDUSTRIAL FABRICATION

V P Industries provides industrial fabrication services specializes in manufacturing products using specialized equipment, tools, and machinery in an industrial setting.

POWDER COATING

The combination of laser cutting and powder coating provides many benefits, including improved accuracy, efficiency, and durability.
